PUBLIC

LEDGER

FIRST YEAR.

HOW SHALL WE VOTE?

BY THE VIVA FOICE STYLE OR THE SECRET BALLOT.

A question has arisen in regard to the manner of voling at the ensuing city public attention. It is whether the old viva voce style of voling or the secret bailot system shall prevail. Plausible arguments and theories are advanced in favor of each, and exponents of either arguments and theories are advanced in favor of each, and exponents of either that must be decided at an early date. There is something of a conflict between the new state Constitution and the election law about to go into effect, but charter, which is not specific enough. Section I of the new election law about in all elections bereafter bed in this state.

All city and town officials in this state shal be elected or appointed as provided in the charte of each respective town and city, until the year at election in November, 1883, &c., &c.

The city charter, while it does no specify the exact manner of voting says Qualified electors shall meet in the wards in which they reside and vote for Councilman.

Who the devil ever heard of S. E. Mosss, the mythical discovery that The Entletin brought forward to disprove a statement that The LEGGER never made?

WILLIAM H. WOMWORTH. Jr.

TROWAR AD DAYN.

Editor and Nonager.

WHILE our esteemed neighbor of Th WHILE our esteemed neighbor of The Fulletin has been beating the bashes to did some former Republican who will list time support Mr. CLEVELAN, the fact that Mr. POWDERLY, always a Democrat and the leader of the labor movement in the United States, has thrown the "Stuffed prophe" overboard and declared for HARRISOX, seems to have escaped his attention entirely. How blind some people are!

The Democratic Philadelphia Times and this to say editorially of the late athering of the Grand Army boys in gathering of Washington:

Washington:
The whole country is both loyal and prosperous, the shackles have been stricken from every slave, and the Union is cemented as never before, as the result of valor and patroitism of the old soldiers and their dead comrades.

THE McKinley bill taxes snuff 56 ents a pound. It sells in the American cents a pound. It sells in the American market for 50 cents a pound-six cents less than the "robber Tariff tax." The statement of Grover CLEVELAND that the amount of the Tariff is added to the price of an article looks like a Democratic campaign lie.

Democratic campaign lie.

The Democrats opposed the Homestead act; they opposed the National Banking system; they opposed the building of the great trans-continental railways; they opposed the Union and in National convention declared the war for its preservation a failure; they opposed the manufacture of steel rails in the United States, which to-day produces more of them than any other country on the globe; in short, they have opposed every Important measure that has been placed on the National statute book in the past thirty years. It is quite natural, therefore, that they should oppose the new tin plate industry, and insulf american workmen by saying they cannot make an article that is made by the most ignorant workmen of made by the most ignorant workmen of England and Wales.

In another column to-day we print a synopsis of the result of an investigation made by The American Architect Into the question of the plate and terms of the plate production in Testimony. the United States; the investigation was made simply and solely for the purpose of ascertaining facts and not for any partisan use, says The New York Press. So much has been said in Democratic newspapers about the impossibility of making the plates in this country in sufficient quantitles to amount to anything; so pensistently have such papers discredited accounts of actual tin plate works; so include a such as the plate in this treatment when years the present of the new manufacture, even though its returns have been given in official form by an agent of The Treasury Department, that it is possible there may still be some people who do not believe there is any such a thing as American tin plate, and still more who may believe that the "infanti industry" can never grow to paying proportions. Furthermore, there are no doubt many admirers of Mr. Clavylland who, recollecting that famous message of 1887, will maintain that the amount of the duty must be added to the price of the pixel of the price of the plate establishments now in the Tattee States; that the actual output for the quarter ending June 20th, 1892, was

Nemerous and the Place of a Big Fish on Their Frot Line.

Nemerous and the State of Engle ereek, very fond of fishling with trot lines, Monday morning went out to run his line. Finding one end of it broken loose from its place, he got in his boat and crossed to the other side of the creek to find the other end of his ereek to find the other end of his at little pull, he thought he had a huge fish. He called for help to save it, and a man came to help him, and when they got to it they found a large animal about eight feet and a half long, with sixteen legs and four eyes. He had eaught himself on the tened in his body. After a long and severe struggle they got the animal sahore. He seems to be a very quiet animal, and will be easily tamed. They now have him tied with a rope, and with a slow, ateady pull be will crawl time, and then go back into the water. He has a head somewhat like a horse, neck like a dog, short, thick legs and a short tail. He is of a dark brown color, with short, fine hair. He has six toes on his front and hind feet and only four on the rest of his feet. He mean body behind the front legs, and tapers gradually back, and measures two feet ten inches in front of the hind legs. His noattils are much larger than those of a horse, and he makes a noise like a duck, only a great deal louder.
